

Design with Confidence with the **NEW**

ReidBox™ MX

ReidBar™ Rebate Connection System

Structural Integrity & Trust.

- Reid's ReidBox™ Rebate Connection Systems offer the only genuine ReidBar™ 'bar-break' continuous connection system on the market.

Compliance, Testing & Support.

- Fully compliant with AS/NZS 4671:2019 for steel reinforcing, the system is backed by in-concrete testing and meets industry standards for quality and safety. Manufactured in Australia, ReidBar™ is certified under the ACRS third-party scheme.

Optimised Product Design.

- The End to End continuous placement and single or double row configurations ensure correct alignment and spacing, guaranteeing site installations meet the specified requirements every time.

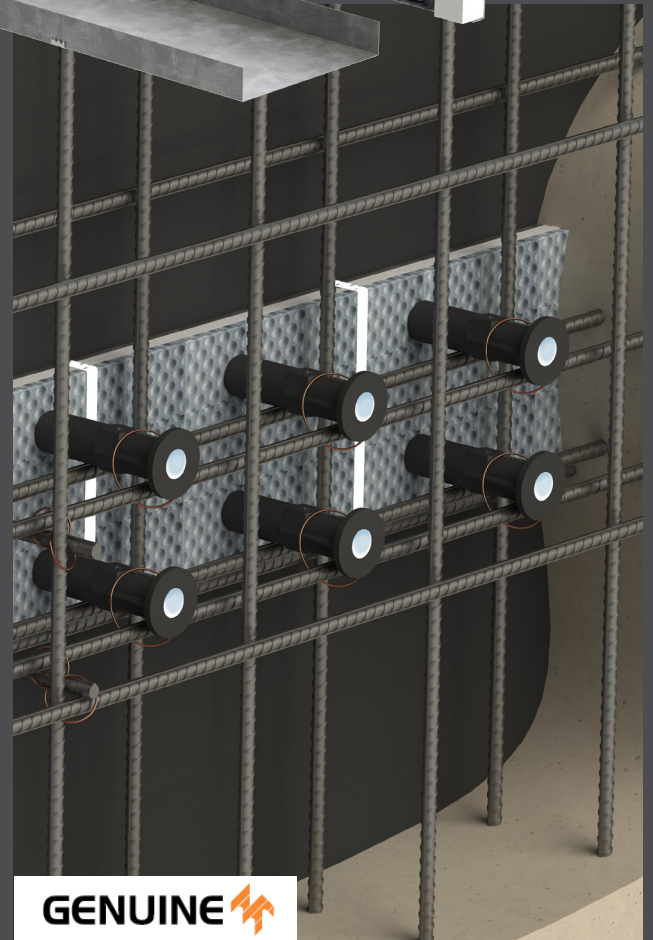

Plumb Stiffener Plate

- Ensures starter bar screws in plumb, no bending required, achieving perfect cover every time.

Genuine and Compliant system.

- Part of the Genuine ReidBar™ 2-part reinforcing connection system.
